

SOGET welcomes Hervé CORNEDE as Executive Director

Le Havre, June 1, 2018 - SOGET, Le Havre based company and leader in Port Community Systems, is pleased to welcome Hervé CORNEDE this day, as Executive Director.

Since September 2009, Hervé CORNEDE has held the position of Commercial Director and member of the management board of the Port Authority of Le Havre. Since its creation in January 2013, he became as well Commercial and Marketing Director of the HAROPA port complex. His long port experience is coupled with an in-depth knowledge of the logistics environment since Hervé CORNEDE was General Delegate of professional representative organizations such as TLF (*Transport & Logistics of France*) as well as Deputy General Delegate of FFOCT (*Industrial Federation for Transport Organizers and Freight Forwarders*) and of AUTF (*French forwarders and logistics association*).

Hervé CORNEDE has a strong customer culture, that is essential for developing collaborative solutions, with all public stakeholders and private operators in international trade. The current implementation of SOGET S)ONE community solution on the Seine Gateway Corridor was already at the heart of joint actions between SOGET and HAROPA. He has a deep understanding of the Port Community Systems' globally competitive business and ecosystem. He brings his interpersonal skills that will enable him to forge new and trustworthy ties with SOGET's customers and solution partners.

Gilles PAUMIER, President and CEO of SOGET states: " *The arrival of Hervé marks an important milestone in the synergy fostered by SOGET and HAROPA, the Port Authority of Le Havre and the entire business community who have placed their trust in us for 35 years now. As Executive Director, Hervé will take us through another phase of development to strengthen our position as a Global Leader.*"

Graduated with a MBA in International Transport and Logistics at the University of Paris Sorbonne in 1988, Hervé CORNEDE has been a French Foreign Trade Advisor (CCEF) since 2014.

About SOGET

SOGET develops and operates digital solution for trade facilitation. World leader in Port Community Systems (PCS) with more than 70 references on 4 continents, SOGET proposes S)ONE, its 4th generation of PCS to optimize trade logistics processes between public and private stakeholders. The solution is currently being deployed in France on the Seine Corridor, in the Democratic Republic of Congo and in Jamaica.

SOGET provides turnkey solutions combining technological excellence and proven track record in implementation methodology bringing fluidity in port and airport communities.

Headquartered in Le Havre since 1983, SOGET is a founding member of the International Port Community Systems Association (IPCSA) and the SEFACIL Foundation.
